

Attachment J04

Fort Meade Security Requirements

A. Eligibility for Access: All persons requiring access within the boundaries of Fort Meade or restricted areas therein, must comply with all Fort Meade security regulations. The Government reserves the right to discontinue or not grant (deny) access to the Contractor or any subcontractor thereof, that the Government deems incompetent, careless, insubordinate, who violates security procedures, or is otherwise unacceptable or a security risk. The Government is not obligated to advise the Contractor of the reason for the denied or discontinued access to Fort Meade.

B. Facility Access:

(1) Fort Meade's controlled compound is identified as those areas within the perimeter of the Installation. Access to Fort Meade is controlled on a continuous basis by a permanent Government security force. This access includes personnel and vehicles.

(2) Contractor and Contractor subcontractor personnel shall not be permitted onto the Installation unless they are in performance of their contractual responsibilities or have scheduled business conferences with authorized Government personnel who are involved with the contract.

(3) All Contractor and Contractor subcontractor personnel requiring access to restricted security areas shall be required to wear and to display at all times and appropriate identification badge which shall be issued by the Government. All personnel shall also wear company provided uniforms to provide ready identification by the Government security force.

(4) All Contractor and Contractor subcontractor personnel shall have in their possession at all times a recent photo identification card (driver's license, state ID card, military ID, Government issued contractor ID or similarly recognized photo identification).

(5) The Contractor may have to comply with additional entry procedures to obtain access into the restricted areas such as NSA, etc.

C. Hazardous Weather Conditions:

(1) Fort Meade may choose to delay opening at normal business hours or may choose to close early, during hazardous weather conditions. During these times, it may become necessary for the Contractor to follow the same schedule for non-emergency repair/maintenance work. An example would be, if Fort Meade declared a two hour delay in opening, then the Contractor shall reschedule their starting time accordingly.

(2) The following is a list of radio and television stations that announce Fort Meade's closings/delays:
